MEMORANDUM FOR THE RECORD:

SUBJECT: OIR Priority Reports in Reproduction

25X1A9a [REDACTED] 1. In the absence of the AD/RR, or DAD/RR, I called [REDACTED] at Alexandria to inquire as to the status of various OIR reports of priority interest. These reports were:

<u>Order No.</u>	<u>Short Title</u>
544-412	Guided Missile Requirements
544-415	CFEP Quarterly
544-350	EIC RI-30
546-585	OR E&E Study (due to SAC 15 January)

25X1A9a

2. I told [REDACTED] that we were prepared to authorize overtime on the first two projects (544-412 and 544-415), in order to receive them, respectively, on 13 January and 10 January. If we could receive the remaining two reports (544-350 and 546-585) by 15 January or within a day or two thereafter, this would meet our needs, and no overtime would be needed. If the latter reports would not be available until the week of 20 January without overtime, I asked to be notified. These dates were arrived at after discussion with [REDACTED]
